

## Encoder Quick Start Guide for Facebook (For pre-configured encoders)

NVS-34

NVS-33

HS-1600T MARK II

HS-3200

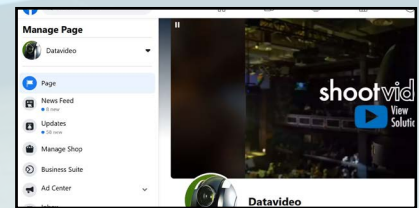

HS-1300

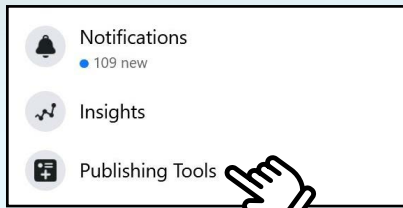

**1.** Turn on the encoder. If you are using an "HS" switcher, then the encoder is already on.

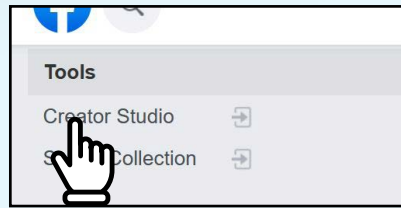

**2.** Power on the video source (camera, switcher, etc.)

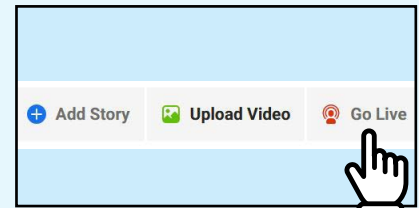

**3.** Open your organization's Facebook page.

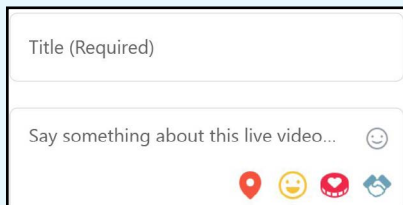

**4.** Open "Publishing Tools."

**5.** Open "Creator Studio."

**6.** Click on "Go Live" to open the Live Producer.

**7.** Write a title and description for your live stream.

**8.** On the encoder, press and hold the "stream" button for 3 seconds until the blinking red button becomes solid red.

**9.** Ensure that your stream is reaching the Live Producer, then click "Go Live." You are now streaming!

To configure your encoder, please visit [www.datavideo.com/streamsetup](http://www.datavideo.com/streamsetup)
